

2012 ISAAA Report on Global Status of Biotech/GM Crops

by
Dr. Clive James
Founder and Chair, ISAAA Board of Directors

**International Service for the Acquisition
Of Agri-biotech Applications (ISAAA)**

<http://www.isaaa.org>

US registered, Not-for-Profit Charity, co-sponsored by public and private sector organizations

Mission of ISAAA:

- Share knowledge on crop biotechnology so that the global community is more well informed about the attributes and potential of the new technologies
- Contribute to poverty alleviation by increasing crop productivity and income generation, particularly for resource-poor farmers, and to bring about a safer environment and more sustainable agricultural development, through crop biotechnology.
- For more information, visit <http://www.isaaa.org>

Global Area of Biotech Crops, 1996 to 2012: Industrial and Developing Countries (M Has, M Acres)

GLOBAL AREA OF BIOTECH CROPS

Million Hectares (1996-2012)

A record 17.3 million farmers, in 28 countries, planted 170.3 million hectares (420 million acres) in 2012, a sustained increase of 6% or 10.3 million hectares (25 million acres) over 2011.
